City of Ida Grove Outdoor Swimming Pool Improvement Project

City of Ida Grove Outdoor Pool Improvement Project

Background & Purpose

In September of 2007, a pool slide committee was formed. The purpose of the committee was to determine what slide and features were desired for the swimming pool, market the project to the public, and raise funds for the project. The committee is hoping to fund the project through grants and private donations. **The City of Ida Grove has pledged \$100,000 of the \$300,000 needed towards phase I of the project, payable over three years.**

Benefits

Aquatic centers are popping up all over Northwest Iowa. Many recreational swimmers are leaving the area to visit pools with added attractions. This has negative economic impact on the Ida Grove Swimming Pool as well as the community. In addition to the positive economic impact this project would have it would also improve the quality of life for the citizens of Ida Grove as well as surrounding communities. The goal of the committee is to transform our pool into an aquatic center while keeping our user fees low.

Questions

If you have any questions about the City of Ida Grove Pool Improvement Project or if you are interested in making a donation, contact Recreation Director, Matt Salvatore at 364-3716.

How to Give

To make a donation, please make checks payable to:

City of Ida Grove Pool Improvement Project
311 Barnes St.
Ida Grove, IA 51445

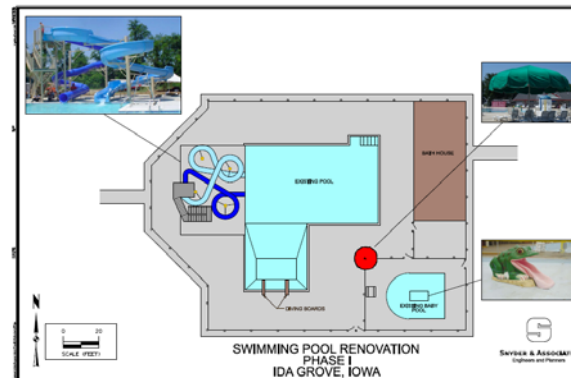

Phases

The project has been broken down into three phases in order to achieve progress with the project step by step.

Phase 1: Construct a dual pool slide in the northwest corner of the pool, construct a frog slide in the existing wading pool, add a shade umbrella for the deck, and various bath house renovations.

General Cost Estimate:

\$176,768.00 for pool slide
\$50,000.00 for construction
\$22,676.80 for engineering
\$10,896.00 for frog slide
\$5,000.00 umbrella for deck
\$34,659.20 bath house

The slide will not have any age or height requirements. A guard will be stationed at the top of the slide as well as the bottom of the slide in the 4 ft. water to ensure swimmer safety.

Phase 2: Add concessions/bathroom building/area in Southwest corner with tables and outside window, add another shade umbrella, install additional lighting for evening hours, and pool sound system.

General Cost Estimate: Haven't requested yet.

Phase 3: Take out wading pool and replace the area with a Zero Depth Entry with play features all the way to the existing pool.

General Cost Estimate: \$375,662.23.
